

TabLog offers a solution for recruiter specialists to manage interviews easily and smoothly. With our automated system, we provide you to manage the invitation and arrival of your candidates without problems making the best impression, even without receptionist.

Advantages of TabLog

EFFECTIVENESS

Invitation function compatible with any calendar, with automated QR-code-arrival and direction function.

CLEAR DATA RETRIEVAL

Clear data retrieval for all interviews of the whole recruiter team.

AUTOMATED NOTIFICATION

Automated notifications upon arrival of the candidates for the effective management of the continuous interviews.

THE BEST IMPRESSION

Modern devices and solutions for making the best first impression.

SECURITY

Cloud computing data storage in accordance with GDPR regulations, without paper-based data recording and receptionist.

Candidate arrival with TabLog

INVITATION

The candidate receives an invitation via email with all information and the QR code required to the entry.

DATA PROCESSING

The candidate completes and accepts the GDPR, health and other relevant regulations and declarations.

ARRIVAL

Arriving on the scene, candidate scans its QR code on the placed device and will receive and automatic notification of where to wait.

NOTIFICATION

The recruiter will be automatically notified of the candidate's arrival, which enables the recruiter to continue its ongoing interview.
